NOTES for current and future compensation, benefits and other reimbursements.

Note #1 - This Organization is one of the corporate entities listed on Part VI, Line 80 "Related and Controlled Entities" which is included as a part of this return. This Organization is a participating member of a vertically integrated direct service prepaid health care program.

Note #2 - The Officers and Directors can be contacted in care of:

Kaiser Foundation Health Plan, Inc.
Program Office Controller's Department
One Kaiser Plaza, Suite 15L Ordway
Oakland, CA 94612

Note #3 - The executive compensation program for Kaiser Foundation Health Plan, Inc. and Subsidiaries and Kaiser Foundation Hospitals and Subsidiaries (KFHP/H) is designed to recruit, retain and motivate qualified senior management personnel. Senior management personnel have a significant impact on the strategic and policy direction and results of the organization. Therefore, the executive compensation program is, to a significant degree, performance-based. The compensation program is reviewed annually by an independent committee of the Board of Directors of KFHP/H, which evaluates and approves all programs and payments to executives.

Base pay for executive positions is established at a level comparable to the relevant market. In addition, other components of the compensation program bear 'at-risk' features designed to focus on strategically important performance goals and to assist in attracting and retaining top performers. The executive compensation program is targeted at the median of the comparable external market in which the organization competes for executive leadership. The compensation program focuses on objectives in the areas of quality of member care and service, financial soundness, and the community and social mission of the organization.

Note #4 - Compensation, benefit plan contributions and reimbursement for certain expenses (collectively referred to as "compensation") of Directors, Officers and Key Employees are paid by Kaiser Foundation Health Plan, Inc. (Health Plan) [94-1340523] as common paymaster and disbursement agent for the participating member organizations of KFHP/H. Certain Directors, Officers and/or Key Employees perform services for several of the KFHP/H member organizations.

Some of the amounts shown as Compensation were actually earned in years prior to 2007. This compensation is effectively reported in Part V twice – once in the year deferred and again in the year paid. However, the compensation is only paid once. The disclosure rules mandate that significant amounts of compensation are double-counted in both 2006 and 2007. For instance, column C1 includes distributions from retirement, savings, and deferred compensation plans that were earned in prior years, and column D2 includes incentive payments scheduled for 2008 for performance goals achieved in 2007.

Note #5 – The Organization offers various benefit plans, both qualified and non-qualified. Among the benefits offered to the officers listed on Form 990, Part V-A line 75 c are a qualified Defined Benefit Plan (Plan A), a qualified Defined Contribution Plan (Plan B), a Section 403(b) Tax Sheltered Annuity Plan (TSA), a Section 457(b) Deferred Compensation Plan (CAP), and health and welfare benefit plans. Included in Benefits reported for this purpose are the value of the annual contributions to Plan B, TSA, CAP and certain health and welfare benefit plans. Estimates

for 2007 accruals for future benefits under Plan A are included in column D1.

For other benefit plans available to executives which provide future benefits earned during 2007 (where the specific amounts are available and determinable by the time this tax report is filed), the amount is included in the Benefits column D1 reported in this return. Amounts determinable at year-end under termination of employment arrangements calling for future payments in a subsequent year are included in the D1 Benefit Plans column for this purpose. Individuals noted with (*) may have amounts included by reason of termination of employment and from benefit plan accounts that were previously earned.

Certain officers, directors and key employees are eligible for post-retirement medical and life insurance benefits if they meet certain eligibility requirements. Payments are not made to these post-retirement benefit plans on behalf of individuals until retirement, and thus, payments to these plans are not reported on Part V, column D. However, when the retiree benefits are actually paid, they are reported on Part V-B of the Form 990.

Note #6 - The amounts reported as Expense Account/ Other Allowance include amounts for reimbursement of expenses. Under IRS rules, ordinary and necessary business expenditures such as travel, transportation, lodging, meals, business meetings and conferences are not included here. These items are reimbursed on an accountable plan basis, consistent with policies and procedures based on prudent fiduciary responsibilities and standards. The policies under which these individuals account to the payer meet the substantiation requirements of Internal Revenue Code Section 274. This reporting includes taxable moving and relocation reimbursements and allowances.

Note #7 - The average weekly time spent by Board members on the organization's affairs during 2007 is estimated to be five hours. Actual time spent by Board member may vary based on different responsibilities during the year. Key employees, who work full-time, may work in excess of the standard 40-hour work week and will work on various entities within the program.

Kaiser Foundation Health Plan, Inc., Kaiser Foundation Hospitals, Kaiser Foundation Health Plan of the Northwest, Kaiser Foundation Health Plan of Colorado, and Kaiser Foundation Health Plan of Ohio have the same Directors. The hours reported for outside Directors for Part V represent the total average weekly time spent by each Director on all of these organizations' affairs during 2007.

STATEMENT PART III

FORM 990, PART III - STATEMENT OF PROGRAM SERVICE ACCOMPLISHMENTS

Kaiser Foundation Health Plan, Inc. (Health Plan) is a California not-for-profit corporation organized for the public benefit and generally exempt from income tax under Internal Revenue Code Section 501(c)(3), and comparable state statutes, for the purpose of providing hospital based health and medical care services. The Internal Revenue Service made the initial determination of Health Plan's exempt status effective June 2, 1949, under Section 101(6) of the Internal Revenue Code of 1939. Such Section is the predecessor of Section 501(c)(3) of the Internal Revenue Code of 1986. Health Plan is listed in IRS Publication 78, Cumulative List of Organizations Exempt From Tax.

Health Plan shares a common board of Directors with Kaiser Foundation Hospitals (Hospitals) and three affiliated Health Plan subsidiaries. Two additional health plans with community based boards are affiliated with Health Plan. Health Plan is the principal controlling member of the five operating subsidiary health maintenance organizations in the integrated health care delivery system commonly known as "Kaiser Permanente." Each of these member organizations is also generally exempt from Federal income tax under the provisions of Internal Revenue Code Section 501(c)(3).

Kaiser Permanente is an integrated health care delivery system that in 2007 served over 8.7 million members in the following states; California, Hawaii, Oregon, Washington, Colorado, Georgia, Ohio, Maryland, Virginia and the District of Columbia. It is the largest private pre-paid health care program in the United States with approximately 160,000 employees and approximately 14,000 full-time equivalent physicians in the affiliated dedicated physicians practice groups.

Hospitals owns and operates hospitals in California, Hawaii, and Oregon. These hospitals provide services to all persons in the communities in which they are located. These services are made available to members of the community regardless of race, sex, religion, national origin or ability to pay. In addition, Hospitals provides for and/or arranges for hospital based care, extended care and home health care to the approximately 8.7million individual members of Kaiser Permanente.

Emergency rooms located within hospital facilities owned and operated by Hospitals are available to the public on a non-discriminatory basis. The policy of Hospitals is that all persons who present themselves to an emergency room in a hospital owned and operated by Hospitals will be evaluated by an appropriately trained nurse or physician. Depending on the person's medical condition, they will be stabilized and referred or transported to an appropriate facility, or if medically appropriate, they will be admitted into the hospital for treatment.

Hospitals provides a financial assistance program to assist persons who cannot afford hospitalization and/or medical care. Hospitals also sponsors activities and programs to support the general health education and condition of the members of the communities in which the hospitals are located.

Please see the attachment, "Kaiser Permanente Community Benefit Report for Kaiser Foundation Health Plan, Inc. for 2007." This report will provide a description of activities conducted by Health Plan in the accomplishment of its exempt purposes and for the benefit of the community in which it conducts its activities.

This report describes the structure of Kaiser Permanente and documents the National Community Benefit activities, programs and services of KFH in California, Hawaii, Oregon and Washington, and KFHP and its subsidiaries, combined.

In 2007, Kaiser Permanente served 8.7 million people in nine states: California, Colorado, Georgia, Hawaii, Maryland, Ohio, Oregon, Virginia, Washington and the District of Columbia. This program is the largest private nonprofit health care program in the United States with more than 132,000 full time employees, and 14,000 physicians and 101 dentists. In California, KFHP and KFH served 6.6 million members, with 101,000 full time administrative, clerical and technical employees, as well as 12,000 Permanente physicians representing all specialties. KFHP and KFH in Hawaii served approximately 221,403 members, and have 3,571 full time employees and 392 Permanente physicians. In the Northwest, KFHP and KFH served 479,096 Health Plan members and another 181,597 dental members with more than 900 full time Permanente physicians, 101 Permanente dentists and 6,659 full time clinical, administrative and technical personnel.

Kaiser Permanente is an integrated health care delivery system that combines the provision and financing of health care services. People who elect to enroll in a Kaiser Permanente health plan receive a full range of prepaid health care services, including hospital care, professional care in hospitals and physicians' offices, x-ray and laboratory services, physical therapy, emergency, ambulance transportation, preventive services, health education and certain prescribed drugs. More comprehensive drug coverage is also provided through a separate coverage rider.

In the hospital-based regions—California, Hawaii, Oregon and Washington, Kaiser Permanente is comprised of several separate legal organizations: KFH - a California nonprofit public benefit corporation exempt from federal income tax under Internal Revenue Code 501(c)(3); KFHP - a California nonprofit public benefit corporation exempt from federal income tax under Internal Revenue Code 501(c)(3); Northwest Health Plan - an Oregon nonprofit corporation, and The Permanente Medical Group, Inc., Southern California Permanente Medical Group, Hawaii Permanente Medical Group, Inc., and Northwest Permanente Physicians, PC (collectively, “Permanente Medical Groups”), each of which is a separate, independent, multi-specialty group of physicians and the Permanente Dental Associates, PC, an independent multi-specialty group of dentists organized as a professional organization.

Persons enroll in Kaiser Permanente through KFHP or one of the Health Plan subsidiaries (“Health Plan”). Health Plan provides and arranges comprehensive health care services for members on a predominantly prepaid basis and fulfills its contractual obligations to group and individual members by contracting with KFH and a Permanente Medical Group to provide the required health care services.

Members receive services from various Permanente Medical Groups in the respective Kaiser Permanente regions. The Permanente Medical Groups accept responsibility for professional care of Health Plan members, and are responsible for their own physician recruitment, selection and staffing; they are legally separate entities independent from Health Plan, KFH and each other. The Permanente Medical Groups generally treat members in facilities owned, leased or contracted by KFHP or KFH.

KFHP and KFH are separate corporations governed by identical boards of directors. KFH accepts responsibility to provide or arrange necessary hospital services and facilities for Health Plan members. KFH owns and operates 28 licensed hospitals, including five licensed hospitals with multiple campuses in California, Hawaii and Oregon, which provide emergency and in-patient services to all persons in the community regardless of membership or ability to pay. Staff privileges are available on a nondiscriminatory basis to physicians in the communities served. KFH also contracts with other community hospitals to provide hospital services to members for specialized care and other services.

In California, KFH medical centers are located in the cities of Anaheim, Antioch, Baldwin Park, Bellflower, Fontana, Fremont, Fresno, Harbor City, Hayward, Irvine, Los Angeles, Manteca, Oakland, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Rafael, Santa Clara, Santa Rosa, Santa Teresa, South Sacramento, South San Francisco, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills. In Hawaii, the Moanalua Medical Center is located in the City of Honolulu on the island of Oahu. In Oregon, the Sunnyside Medical Center is located in the City of Clackamas.

Services provided by KFH and membership in Health Plan are available without regard to sex, race, religion, ethnic background, sexual orientation, occupational status or income level. Health Plan members are broadly representative of the various ages, social, and income groups within the areas served. Once enrolled, a member is free to maintain membership regardless of age, health status, or employment.

KAISER PERMANENTE'S COMMITMENT TO THE COMMUNITY

Through the Kaiser Permanente mission, the organization contributes to the health of the communities in two related ways. First, Kaiser Permanente strives for excellence in serving its 8.7 million members through market-leading performance in quality, service and affordability. By doing so, Kaiser Permanente provides a discipline in the marketplace by demonstrating meaningful value and affordability, and generating resources to reinvest in the community's health.

Second, Kaiser Permanente directly invests in improvements to community health by working to increase access for the underserved, disseminating care improvements, altering the social determinants of health, educating healthcare workers and consumers, and informing public policy.

This latter approach, which Kaiser Permanente calls the Direct Community Benefit Investment (DCBI), is fundamental to being a nonprofit organization. It embodies the organization's commitment to improve the health of communities beyond services to Health Plan members. It is more than traditional corporate citizenship or corporate philanthropy. It is an intentional, planned, budgeted, measurable, accountable creation for better health in our communities. It is done in collaboration with, not in isolation from, the community. DCBI serves to fulfill Kaiser Permanente's social purpose, justify its tax-exempt status, and differentiate it from other health care organizations.

This tradition of community benefit dates from the earliest days of the Program, when charitable care to non-employees, and later, nonmembers, was initiated. That heritage has continued through the years in Kaiser Permanente's early participation in publicly financed programs such as Medicaid and Medicare, establishment of residency training and medical research programs, and later, in the development of the Educational Theatre, Safety Net Partnerships, Community Health Initiatives and Charitable Coverage Programs.

In 2001, the Board reaffirmed DCBI as a national program and set the following four goals:

- Address critical questions in American health care that the Program's history, culture and competencies position it uniquely to examine.
- Build the reputation of Kaiser Permanente for its leadership in helping to solve major health challenges.

- Create a program that engages the creativity and spirit of the people of Kaiser Permanente at all levels.
- Meet the requirements placed on KFH, KFHP, and its subsidiary health plans as tax-exempt organizations that return value to the communities served beyond the provision of health care to members.

The Board directed that this new DCBI program be guided by a national strategy, with continued local flexibility and implementation. The program is supported by national and regional funding pools, and built on the organization's integrated healthcare system. In 2007, the KFHP/H Board of Directors refined the focus of the organization Community Benefit Program and established the following four priority areas which have come to be known as "streams of work":

- ♦ **Care and Coverage for Low-Income People** – Creates and supports programs that lower the financial barriers for under- and uninsured.
- ♦ **Community Health Initiatives** – Designs, delivers, and sustains long-term programs that engage communities in work to improve conditions in their neighborhoods.
- ♦ **Safety Net Partnerships** – Builds partnerships with community clinics, local health departments, and public hospitals. Provide funding, technical assistance, dissemination of care management and quality improvements technology to help improve care and expand treatment capacity for vulnerable populations.
- ♦ **Developing and Disseminating Knowledge** – Improve health care by sharing our knowledge-educating practitioners, advancing research, empowering consumers and informing policymakers about the evidence base for care and health.

The Board elaborated that at least 75% of total community benefit funding will be directed to program priorities within the four streams of work and the remaining 25% of funding will be directed by local regions to respond to local community benefit needs and opportunities that may or may not be within the four key focus areas.

The KFHP/H Board has a standing Community Benefit Committee of the Board of Directors to oversee the program-wide Community Benefit program. Kaiser Permanente also has a national executive of KFHP and KFH to lead Kaiser Permanente's Community Benefit Program as a full-time assignment. Raymond J. Baxter, PhD is the Senior Vice President for Community Benefit, Research and Health Care Policy reporting to the CEO and Chairman of the Board.

COMMUNITY BENEFIT PROVIDED BY KAISER FOUNDATION HOSPITALS

KFH's principal purpose is to provide hospital, medical, and surgical care, including emergency services, extended care and home health care to members of the public without regard to age, sex, race, religion or national origin, or to the individual's ability to pay. KFH's general community benefits are:

Emergency departments – KFH operates full-time emergency departments in each of its 28 licensed hospitals, including five licensed hospitals with multiple campuses in California, Hawaii and Oregon. Emergency medical services are available to all individuals regardless of their ability to pay.

Care provided to all patients – Hospital care is provided to individuals with health care coverage from any private or government-sponsored health plan, insured and uninsured referrals from safety net and other public health partnerships, and uninsured patients admitted through the emergency department.

Open Medical Staff Privileges – Staff privileges in the hospitals are available to community practitioners who are not affiliated with a Permanente Medical Group.

Board of Directors – KFH and KFHP have identical 14-member Boards of Directors. The board is comprised of individuals from the academic world and private industry who are representative of the community. George C. Halvorson serves as the Chairman and Chief Executive Officer for the KFHP and KFH Boards of Directors.

Reinvestment of Surplus Revenues – KFHP pays KFH for hospital services and all surplus revenues are reinvested for capital replacement or expansion of facilities and equipment, debt amortization, improvement in patient care and services, and other community benefit services including charity care, medical education and research.

THE COMMUNITY BENEFIT PROGRAMS IN CALIFORNIA, HAWAII, OREGON AND WASHINGTON

In 2007, Kaiser Permanente spent approximately \$1.05 billion or approximately 2.73% of revenue to support the Community Benefit Program. In the hospital-based regions, California, Hawaii, Oregon and Washington, KFHP and KFH spent \$978 million, of which \$536 million is allocable to health plan and another \$442 million is allocable to the hospitals. A breakdown of the 2007 Community Benefit dollars attributable to KFHP and KFH nationally is described in Attachment A, and those dollars attributable to KFHP and KFH for its hospital-based regions (California, Hawaii, Oregon and Washington) in Attachment B.

The following identifies many of the signature community benefit programs and services funded by both KFHP and KFH regionally grouped according to the national streams of work.

CARE AND COVERAGE FOR LOW-INCOME PEOPLE

In 2007, KFH and KFHP's hospital-based regions spent \$716 million to address the financing and delivery of health care for populations vulnerable due to socio-economic status, illness, ethnicity, age or other factors. Program beneficiaries (under- and uninsured) received free or discounted care in a Kaiser Permanente facility or by a Permanente provider.

Following are highlights of the programs and services provided to vulnerable populations in California, Hawaii, Oregon and Washington:

Charitable Care (Medical Financial Assistance and Charitable Coverage)

KFH and KFHP provide charity care to low-income vulnerable populations through the Medical Financial Assistance and Charitable Coverage Programs. In 2007, KFH and KFHP cared for more than 32,000 charity care applicants and 82,289 charitable coverage members. KFH contributed \$65 million and KFHP contributed \$105 million to assist these vulnerable low-income patients pay for care provided in Kaiser Permanente facilities in California, Hawaii, Oregon and Washington.

- **Medical Financial Assistance (MFA)**

KFH contributed approximately \$21 million and KFHP contributed \$6 million to assist patients with limited or no resources to pay for care provided in Kaiser Permanente facilities. Each hospital-based region offers financial assistance to help families and individuals that are unable to meet all or part of the cost of medical care on an immediate and nonrecurring basis. Kaiser Permanente expanded its charity care program to include discounted charges for uninsured patients below 400% federal income guidelines and aligned contracted collection agency practices with Kaiser Permanente social values. The amount reported under this category is only part of the funds spent by KFH and KFHP for the poor and uninsured. The organization's commitment to charitable care is also reflected in a variety of other programs and initiatives such

as the Charitable Coverage Program and grants and donations to community clinics and other safety net providers.

The MFA program in California strives to assist families and individuals that are unable to meet all or part of the cost of medical care on immediate and nonrecurring basis. The program is designed to assist as many patients as reasonably possible and is generally available to people in greatest financial need, including those experiencing unusual or unfortunate circumstances. In California the MFA program's eligibility criteria for patients below 350% federal poverty levels (FPL) may receive full write off, uninsured patients which do not qualify for MFA but make less the 400% FPL will receive up to a 70% discount on charges and any patient experiencing financial hardship due to unreasonable medical expenses relative to their income may qualify for the program under "special circumstances". In 2007, the program served 8,797 applicants.

KFH and KFHP in Northern California continued its participation in Operation Access, a nonprofit organization that mobilizes a network of medical volunteers, hospitals, and referring community clinics to provide the uninsured with donated outpatient surgeries and procedures that significantly improve their health, ability to work, and quality of life. In 2007, 374 surgical procedures were performed in nine KFHP medical centers by Permanente physicians and staff for 369 patients, including hernia repair, cyst and lesion excision, urological, ophthalmologic, and gynecological services.

In addition, KFHP in Southern California worked with Access OC, an Orange County collaborative, on expanding specialty services for safety net providers. As part of this collaboration, Kaiser Permanente staff from the Irvine Outpatient Surgery Center performed outpatient surgeries on eight people referred from local community clinics.

In Oregon and Washington, the MFA program helps pay the medical and dental expenses of patients, both member and non-member, who meet qualifying guidelines by paying for services at facilities owned and/or operated by the Northwest Health Plan and KFHP. The length of financial assistance is based on individual need. At the end of the financial assistance award period, the patient may apply for an extension. In 2007, Northwest Health Plan and KFHP spent \$5.7 million on this program to serve 223,356 applicants who qualified for medical assistance. Of this amount, \$4 million is attributed to Northwest Health Plan and \$1.7 million is attributed to KFHP in Oregon and Washington.

The MFA Program in Hawaii helps people with very limited or no financial resources needed to obtain medically necessary care. The program is open to members and nonmembers who can not pay for all or part of the cost of health care services and supplies. Individuals applying for the program must have exhausted private or public sources of support and must meet the financial eligibility criteria. In 2007, the MFA program in Hawaii served 176 patients.

- **Charitable Health Coverage Program**

Approximately 83,000 low-income adults and children who were not eligible for other public or privately sponsored coverage received health care coverage through one of Kaiser Permanente's Charitable Health Coverage Programs in California, Hawaii, Oregon and Washington. KFHP contributed \$99 million and KFHP contributed an additional \$45 million to provide subsidized care for these underserved populations in 2007.

The Steps Plan and Kaiser Permanente Child Health Plan are the specific products that form the Charitable Health Coverage Programs in California.

Kaiser Permanente Steps Plan – The Steps Plan provided 16,651 members the opportunity to continue their health care coverage at reduced cost when experiencing financial difficulty due to job loss, involuntary reduction in work hours, legal separation, divorce or death of a spouse. Typically, participants are not eligible for any public or private group health insurance plan, and have family income between 100% and 300% of the federal income guidelines. The plan is available to parents of children enrolled in AIM, Healthy Families or the Kaiser Permanente Child

Health Plan as well as to individuals participating in vocational training programs offered through government, private industry councils and social agencies. The Steps Plan premium is subsidized at four levels or steps: 20%, 40%, 60% and 80%. Participants are placed in an initial premium step based on their current family income. They remain at the initial step for one year and are then moved to the next higher step.

Kaiser Permanente Child Health Plan (KPCHP) – The Child Health Plan provides medical and dental coverage to eligible children (birth through 18) in families with income up to 300% of the federal income guidelines who do not have access to employer-subsidized coverage and do not qualify for public programs because of family income or immigration status. Child Health Plan provides comprehensive benefits including preventive care, inpatient and outpatient services, prescription drugs, vision and dental care. Premiums are \$8 or \$15 per child per month, depending on family income, for a maximum of three children (additional children are covered free of charge). In 2007, approximately 59,000 children received care and coverage through this program.

The Northwest Health Plan provided coverage and services valued at \$5.3 million and KFHP committed \$4.6 million to provide subsidized coverage to 6,717 low-income adults and children who are not eligible for standard Medicaid or privately funded coverage. The Charitable Coverage Program consists of the Transitions, Child Health Program, and Washington Basic Health.

- **Transitions** – This program is a fully subsidized health insurance program for eligible low-income families. Eight college campuses currently participate within the Portland Metropolitan area. Students must be enrolled in a participating school, meet the financial criterion, and can not be enrolled in another private or public health care plan. Graduates are eligible for an additional six months coverage or until the employer-paid coverage is activated. Enrollment by year-end was 917.
- **Child Health Plan** – Northwest Health Plan offers full subsidy health insurance for eligible low-income students. Currently, 180 schools within the Multnomah Education Service District, Salem-Keizer School District and Hillsboro School District participate in this program. Students must be enrolled in a participating school, meet the financial criterion, and can not be enrolled in another private or public health care plan. The participating school districts act as the administrator for the program and are responsible for outreach, and enrollment. Total enrollment for year-end 2007 was 3,418.
- **Washington Basic Health Plan** – This program offers quality, low-cost health coverage to eligible people who live in Washington State and managed by Washington State Health Care Authority (HCA). The Northwest Health Plan provides service to eligible participants who reside in Clark or Cowlitz counties. At year-end, 2,383 individuals enrolled in this charitable coverage program.

Participation in Medicaid and Other Government Sponsored Programs

KFHP and KFHP have a long history of participating in publicly financed health programs. In 2007, \$509 million was expended (in excess of reimbursement) and 161,121 people were served in government sponsored programs for low-income people in California, Hawaii, Oregon and Washington. Approximately \$186 million is attributed to services provided by KFHP and \$323 million is attributed to KFHP.

Kaiser Permanente Medi-Cal Managed Care, Medi-Cal Fee-for-Service and Healthy Families are specific government sponsored health care coverage programs in California.

- **Medi-Cal** – KFHP enrolled 124,433 Medi-Cal (Medicaid) managed care members in California. KFHP subcontracts with local initiatives in Alameda, Contra Costa, Los Angeles, Riverside, San Bernardino, San Francisco, and Santa Clara Counties, with county-organized health systems in Napa and Solano Counties and Orange County. KFHP also contracts directly with the state of California

through their Geographic Managed Care Plan for Sacramento and San Diego Counties, and through the Prepaid Health Plan for Marin and Sonoma Counties.

- **Medi-Cal Fee-for-Service** – KFHP and KFH in California provided \$80 million in subsidized care to 29,108 Medi-Cal Fee-for-Service patients. Of this amount approximately \$63 million is attributed to services provided by KFH.
- **Healthy Families** – KFHP enrolled nearly 120,000 children in this federal and state funded insurance program that provides low- and moderate-income families with health insurance for their children under 19 years of age. The program provides comprehensive health benefits, including dental and vision care. To qualify, families must have a total income between 100% and 250% of the federal income guidelines and the children must be ineligible for Medi-Cal coverage.

In Hawaii, KFH and KFHP served both Medicaid members and Medicaid Fee-for-Service beneficiaries and participated in the States Children's Health Insurance Program.

- **Quest & Medicaid Fee-for-Service** – QUEST is a Medicaid managed care program run by the State Department of Human Services. The State administers the QUEST program and pays health plan to provide coverage of medical and mental health services. KFHP and KFH in Hawaii participate in the QUEST programs on the islands of Oahu and Maui. KFHP and KFH provided care to 16,170 individuals enrolled in Quest and expended approximately \$12 million on subsidized medical care services. The Hawaii Region also contributed an additional \$2.2 million on subsidized care for Medicaid Fee-for-Service patients.
- **SCHIP** – The government program provides children with family incomes up to twice the federal poverty guideline for Hawaii, health care coverage under Title XXI of the Social Security Act. SCHIP is one of several aid categories under the QUEST program. Over 2,600 children enrolled in this program were care for by KFHP and KFH in Hawaii.

The Northwest Health Plan participated in Medicaid programs in Oregon and Washington. The following describe the programs and target populations.

- **Oregon Health Plan** - Northwest Health Plan receives monthly capitated premiums from the Division of Medical Assistance Program (DMAP). Members are enrolled based on eligibility criteria. Health Plan provides services to eligible participants who reside in Clackamas, Multnomah, Polk and Marion counties. At year-end, 5,791 individuals were enrolled in this program.
- **Washington Basic Health Plus (BHP-Plus)** – This is Washington's Medicaid program for children who are under the age of 19 and live in households that meet the eligibility guidelines for Medicaid. The Maternity Benefits Program is a Medicaid program for pregnant women. The Department of Social and Health Services (DSHS) determines eligibility for Basic Health Plus. Northwest Health Plan provides services to eligible participants who reside in Clark and Cowlitz counties. By year-end, enrollment for these two programs totaled 847.

Northwest Health Plan \$674,249 in subsidized care to **Medicaid Fee-for-Service** patients. When a Medicaid nonmember receives services from Kaiser Permanente providers at contract hospitals or outpatient services as a result of hospital visit follow-up, or in-patient services for Medicaid members in Oregon, these expenses are recorded as non-capitated services and are reported as professional and non-professional losses for Medicaid nonmembers.

Grants and Donations for Care and Coverage

In 2007, KFH donated \$26 million to more than 150 nonprofit and community-based agencies in California to support the delivery of medical care by community providers.

Over 30 grants totaling \$1.4 million were awarded to support the various community-based agencies to help low-income families with uninsured children navigate the enrollment and recertification processes for California state-funded insurance programs such as Healthy Families, Medi-Cal and/or KP Child Health Plan. The following are examples of some the agencies funded in 2007:

- KFH in Northern California awarded Fresno Healthy Communities Access Partners \$200,000 to expand the One-e-App in Fresno County, an area with very high rate of uninsured children. One-E-App is a web-based application that supports families by providing a one-stop electronic application process for a range of health and social service programs. The program links ten Fresno community-based agencies.
- The Orange County Social Services Agency was awarded \$170,000 by KFH in Southern California to also implement the One-E-App to assist with the enrollment and processing of public health programs throughout Orange County.
- KFH in Southern California donated \$20,000 to the Venice family Clinic to pay for part of the salary of a supervisor for their Health Insurance Enrollment Department.

In 2007, KFH in Northern California contributed \$23 million to the Kaiser Permanent Northern California Fund for Community Benefit at East Bay Community Foundation.

COMMUNITY HEALTH INITIATIVES

As an innovator in health, Kaiser Permanente designs, delivers and sustains long-term programs that engage communities in work to improve the conditions in their neighborhoods, workplaces and schools that can support good health, particularly Healthy Eating, Active Living (HEAL). KFH and KFHP spent \$48 million on community health initiatives during 2007.

Health Eating Active Living Programs

In Northern California, the HEAL program combats obesity by promoting place-based healthy eating and active living programs and interventions in the community. The program supports community healthy initiatives and coalitions that bring medical, environmental and social community level changes such as empowering community residents to eat healthy foods, change of physical and social environments to promote physical activity and policy changes to reduce racial and ethnic health disparities in disease associated with poor nutrition and inactivity.

Southern California developed a comprehensive approach to addressing the rising obesity epidemic and other chronic health conditions related to inactivity and poor nutrition. The concept behind HEAL is to make healthy choices easier by increasing access to health food and physical activity everywhere people live, work, play including schools, worksites and neighborhood settings.

Promoting healthy eating and active living in the communities through policy and environmental change has been the focus for Southern California's HEAL Program. HEAL's multifaceted, long term approach includes working with health care industry leaders, investing in communities, changing public policy, and developing key partnerships. Partnerships with Association of Policymakers, Park Strategy, Smart Growth and Public Land Use have been instrumental in achieving program goals.

The Northwest's HEAL program provides a variety of community outreach activities and services to address the environmental factors that effect childhood and adult obesity. The focus is on increasing access to healthy foods, fun and safe places for children and adults to engage in physical activity as well as raise awareness and educate the consumer about ways to lead a healthier lifestyle through healthy eating and active living. The following describe two community efforts.

- Northwest Health Plan and KFH, along with their community partners, promote farmers markets, school activities, regional food assessment research, walking maps and pedometers as educational tools.
- Northwest Permanente physicians and clinicians advocate for change often by speaking to school boards and elected officials on ways to develop wellness policies, campaign for increase physical activity by using public space effectively and shared in open community forums on adopting healthy eating and active living principles.

Community Health Education and Prevention Programs

KFH in California, Hawaii, Oregon and Washington provided a variety of activities and programs to assist health care consumers in managing their health and well-being. The hospitals serve as the primary site for the dissemination of health education information to both Health Plan and community members who access these facilities through the health education centers. Expenditures in this category exclude program cost for health education programs targeting or restricted to Health Plan members. Other programs and services are offered in various community locations.

Grants and Donations for Community Health Initiatives

The KFH contributed \$17.2 million to nonprofit community organizations in California, Hawaii, Oregon and Washington to support a variety of community health initiatives. The following are examples of programs and services funded in 2007:

- The City of Berkeley's Department of Public Health received \$100,000 (half of the \$200,000 award) to launch the "Eat Well Berkeley" program. Eat Well Berkeley promotes healthier choices in restaurants. To receive and display the "Eat Well" certification, restaurants must meet specific nutritional standards for menu items, eliminate trans fats and offer menu selection with fewer calories and fat. The Eat Well Berkeley has expanded to neighborhood stores near secondary schools to also promote better nutrition for youth.
- KFH in the Northwest awarded \$25,000 to the Morrison Child and Family Center to provide free culturally competent care to Latino families. The center will provide comprehensive social and educational services and mental health care in two of their clinics.
- The Trust for Public Land received \$250,000 from KFH in Southern California to support advocacy and activities to acquire land for public parks in deficient low-income communities, and expanded "fitness" zones.
- Hepatitis Support Network of Hawaii received support from KFH to begin a medical case management and telemedicine program for the treatment of working poor, homeless, or underserved who are infected with Hepatitis B and C living in remote area of the island.
- To develop safe walking and biking routes, KFH in Northern California awarded grants to Safe Routes to School National Partnership and Transportation and Land Use Coalition. Safe Routes to School used the first of \$50,000 installment of \$100,000 awarded in 2007 to develop and advocate for national and state policies and funding to make walking and biking to school safe. A school in Santa Rosa, California was selected to receive intense technical assistance and program support as a result of funding. Transportation and Land Use Coalition used their \$75,000 grant to implement local programs for the Safe Route to Schools.
- The Northwest Health Plan donated \$50,000 to the Free Clinic of Southwest Washington to assist in the purchase of a mobile dental van that provides preventive, routine and urgent dental services to low-income uninsured children in Southwest Washington by visiting schools, churches and community centers.

- KFH in Southern California donated \$118,000 to the Sustainable Economic Enterprise of Los Angeles to support two Healthy Eating Active Living projects. \$50,000 were directed at increasing access to fresh produce for the residents of Watts and East Hollywood through establishing certified Farmer's Markets in these communities. The remainder of the grant supported "Good Cooking", a creative and practical food and nutrition class series targeted towards low-income heads of households in conjunction with the Farmer's Markets.
- Ladies of the Valley is a program that provides practical help, encouragement, counseling and training for life issues to mainly single mothers from an isolated, low-income area of Vancouver, Washington. KFH in the Northwest made a \$5,000 donation the Fruit Valley Foundation to support this community program.
- KFH supported the Life Foundation, Inc. to develop, test and otherwise support the start-up of mental health services, including integrated mental health screening and triage that helps people in Hawaii living with HIV/AIDS.

SAFETY NET PARTNERSHIPS

Through funding, technical assistance, influencing public policy, training and volunteering, dissemination of care-management and quality improvement technologies, Kaiser Permanente helps these vital health care providers improve care and expand treatment capacity for the improve care and expand treatment capacity for the communities and vulnerable people they serve.

Through contractual arrangements with safety net partners, specific populations of nonmembers received specialty and dental care in Northwest Health Plan facilities. The following describes two of these special community partnerships:

- Northwest Permanente perinatologists provide prenatal care in Health Plan facilities to high risk obstetric patients (nonmembers) referred by the Virginia Garcia Memorial Health Center. This community collaboration serves women in Washington and Yamhill counties. Thirty-four obstetric patients were served in 2007.
- The Northwest Dental Program provides charitable dental care and treatment to uninsured resident in Oregon and Washington. These services are provided in collaboration with University of Washington, Community Health Partners, Salem-Keiser School District and the County of Multnomah. Approximately 1,500 children and adults were served by the dental program in 2007.

For decades, KFH and KFHP in California supported safety net providers through grant funding, staff and in-kind contributions. As a result of this support and commitment to community providers, formalized partnership agreement was signed by Kaiser Permanente Leaders and regional and statewide Community Clinics Association representatives in 2003. The agreement covered over 600 nonprofit community-based clinics and health centers throughout the state. The partnership focuses on improving the quality of health care for residents of the California and on reducing health disparities based on race, ethnicity, and economic status.

Grants and Donations for Safety Net Partnerships

During 2007, KFH spent \$31 million to support more than 250 organizations that deliver medical and/or dental care services to uninsured people in a community setting, mainly safety net clinics in California, Hawaii, Oregon and Washington. Below are examples of the community organizations supported by these grants:

- Project Access NOW is a nationally recognized program that expands health care access and improves health outcome for low-income, uninsured residents of Clackamas, Clark, Multnomah and Washington counties through a coordinated network of volunteer partners including other local health systems. A \$135,000 grant was awarded by KFH in the Northwest to support this program.

- KFH in Northern California awarded 67 grants totaling \$6.6 million to the community clinics, public hospitals, and clinic consortia that make up the region's health care safety net. The funding provided the safety net providers with the latest technology for delivering high quality care. Training, technical expertise, and outreach services were also provided in addition to the funding. KFH and KFHP are also helping community providers address major health issues by sharing clinical practices in preventing and managing diabetes, asthma, and other chronic conditions.
- Aloha Medical Mission received a grant from KFH in Hawaii to expand and strengthen its dental services to the indigent population in Honolulu. Funding also supported a partnership with the University of Hawaii's Schools of Dental Hygiene and Dental Assisting to increase the level of dental services for the clinic.
- Public hospitals and community clinics serving the uninsured and Medicaid populations in Southern California were awarded planning grants to develop models for improving access and reduce demand for specialty care among their patients. During year 1, grantees will develop comprehensive implementation plans detailing strategies and activities to increase access and/or reduce demand for specialty care. Eleven safety net providers and one coalition received funding 2007, totaling \$1.65 million.
- Wallace Medical Concern was awarded \$37,500 to support their medical service program that annually serves 4,100 adults and children in Portland/Gresham metropolitan area who are uninsured.
- KFH in Southern California awarded \$750,000 grant to Community Partners to support the implementation of Phase II of the Building Clinic Capacity for Quality (BCCQ) in 30 community – based clinics. Phase I worked with clinics to develop technology solutions to improve health care quality and delivery. Phase II allows the clinics to initiate the technology-enabled quality improvement model developed in Phase I into clinical operations.
- North by Northeast Community Health Center received a \$25,000 grant from KFH to provide free health screenings and basic medical services to the medically underserved communities of North and Northeast Portland.
- Support from KFH helped to expand primary and preventive care service at the Waikiki Health Center. The clinic provides services to the most vulnerable and underserved residents of Oahu, including homeless, run away youth and others served by the Care-A-Van mobile unit.
- A \$13.5 million contribution was made by KFH in Southern California to Kaiser Permanente Community Benefit Donor Advised Fund at the California Community Foundation in 2007.

DEVELOPING AND DISSEMINATING KNOWLEDGE

Kaiser Permanente aims to improve health care by sharing its knowledge, educating practitioners, advancing research, empowering consumers, and informing policymakers about the evidence base for care and health.

KFH spent \$3.1 million to support programs and services for the development and dissemination of knowledge and provided grants and donations to nonprofit organizations.

Clinical and Health Services Research

For more than 40 years, Kaiser Permanente researchers have leveraged modest grants financed through the Community Benefit Program into major discoveries that have served our communities, influenced national policy, and informed medical practice throughout the nation and the world. Many of the research studies address current health issues and improve care for common conditions where treatment is often linked to community-based efforts, and are broadly disseminated through articles and professional

presentations. Kaiser Permanente conducts more research than any other non-academic institution in the United States.

Kaiser Permanente investigators in California, Hawaii, Oregon and Washington participated in research and evaluation studies, partnering with several prominent academic research institutions, including Harvard University, Oregon Health & Sciences University, Stanford University, University of California (Los Angeles, Berkeley and San Francisco), University of Southern California, University of Washington, National Institutes of Health, Agency for Healthcare Research and Quality and the Centers for Disease Control and Prevention.

In California, KFH has three research departments: the Division of Research (DOR), Northern California, established in 1961; Department of Research & Evaluation (R&E) Southern California, established in the early 1980's; and Kaiser Foundation Research Institute (KFRI). Two nursing research units for KFH in California also engage in studies on nursing practices, patient care, and patient outcomes in order to improve clinical practices. The Center for Health Research (CHR) is the primary research department for KFH in Oregon and Washington, and the Center for Health Research Hawaii (CHRH) is a formal subdivision of CHR in the Northwest.

CHR, CHRH, DOR, KFRI and R&E—together with the Northern and Southern California Nursing Research Departments—spent approximately \$11 million to support more than 1,000 primary research studies, published articles and present findings in medical education forums and conferences. The following is a sampling of the evidence-based studies conducted in 2007:

- *An evidenced-based Approach to Vital Signs: A Community Clinic – Kaiser Permanente Partnership* - This project was to develop consistent and standardized methods for evidence-based vital signs measurement and vital sign documentation. Standardizing the measurement of vital signs in the clinic setting has the potential to streamline workflow processes for the health care workers which can impact the efficiency of patient triage and patient registration.
- *Genes, Environment and Health* - Northern California's Division of Research launched one of largest research projects in the world to examine the genetic and environmental factors common disease known to be linked to heredity. This study seeks to gain a deeper understanding of the combinations of genes, behaviors, and environmental factors that affect disease prevalence, severity and outcomes.
- *MVP: Health Supports for Consumer with Chronic Conditions* – This study focused on effectively addressing the high needs of Medicaid recipients. Ten sites across the country tested best practice believed to have a positive impact on the health of members with chronic illnesses as well as reduction of costs over time. One key finding indicated that combining high-risk Medicaid patients' services, including physical treatments, behavioral, substance abuse, and long-term care, shows promise of increased improvement for patients as well as reduction in hospital stays.
- *Reducing Heart Attacks and Strokes Among the Uninsured* – An evaluation of the ALL (Aspirin, Lisinopril and Lovastatin) treatment verified that once uninsured patients are placed on the treatment they stayed on the therapy at impressive rates. These patients now have a 40 percent lower risk of hearts and strokes. The treatment improves the overall management of their diabetes, including decreasing blood sugar levels and routine preventive care. The result showed that Kaiser Permanente derived treatment protocols are improving the health of the underserved patients.
- *Screen Time Pilot Study* is collecting preliminary data for a proposal to conduct a family-based intervention aimed at reducing TV and computer screen time for 8-10 year old children with body mass index (BMI) at or above the 85th percentile of age.

- *Recovery Group Pilot Study* is developing and evaluating a low-cost joint consumer/counselor-led health education and support intervention to foster self-care and recovery among adults with serious mental illness.
- *Family Cost Study* is developing and pilot testing an instrument to measure the family costs associated with mental health problems to combine qualitative and quantitative methods for developing and testing the feasibility and acceptability of the instrument.

Health Sciences and Medical Libraries

KFH spent approximately \$4 million to support its medical libraries, and other health resource and information dissemination services. These programs give medical staff and the greater professional community access to health-related research conducted within and outside of Kaiser Permanente. Medical libraries participated in an inter-loan system with other community hospitals, supported students in training and education programs to conduct literature searches and conducted searches for community clinics and other community-based organizations on advances in medical treatment, clinical protocols and new development on specific health issues. During 2007, health sciences and medical libraries in California, Hawaii, Oregon and Washington completed thousands of requests for general knowledge and literature searches for research purposes.

Tumor Board and Cancer Registry

KFH spent \$1.3 million to support the Tumor Board and Cancer Registry in the Northwest and Hawaii Regions. Besides being a statistical database utilized by clinicians and researchers within the region, the registry submits statistics to the National Cancer Data Base annually. The Cancer Program, which oversees the registry, is surveyed for accreditation every three years by the American College of Surgeons Commission on Cancer.

Educational Theatre Programs (ETP)

Educational Theatre Programs uses live theatre, music, comedy and drama to inspire children, teens and adults to make healthier choices and better decisions about their well-being. These educational programs were developed with the advice of teachers, parents, students, health educators, medical professionals and professional theatre artists. All performances are delivered by professional actors who are also trained as peer health educators, and performed free of charge for the community. ETP also provides schools and organizations with supplementary educational materials, such as workbooks, parent and teacher guides and student wallet cards to reinforce the messages presented on stage.

KFH and KFHP in California spent \$8.6 million to provide nearly 559,500 children and adults the opportunity to view one of the 2,544 performances during 2007. The current repertoire includes:

- The Best ME – a program for grades 3-6 that helps students understand the benefits of making healthier life choices.
- Zip's Great Day - Musical comedy for elementary school children about making healthy choices and avoiding conflict.
- P.E.A.C.E. Signs - Conflict resolution and anti-violence program for upper-elementary school students.
- Drummin' Up Peace – A multi-intervention program that promotes conflict isolation to help students increase peace.
- Someone Like Me – a production that uses drama, music, and humor to address adolescent issues.
- Amazing Food Detective - Bilingual (English/Spanish) program for elementary school kids on making informed food choices and snacking in moderation to avoid obesity and its health problems.
- ARRR-STHMA! - Entertaining production that focuses on dealing with childhood asthma.
- Nightmare on Puberty Street - Dramatic presentation about the joys and angst of adolescence.
- Secrets - HIV/AIDS educational drama for high school students.
- The Swashbuckling Adventures of Jaime in the World of Red, the Reading Pirate – promotes the importance of literacy to students.

KFH in the Northwest and Oregon Children's Theatre partnered to deliver Educational Theatre Programs, free of charge to schools and community organizations. The theatre programs are developed with the combined efforts of physicians, health educators, theater professionals and teachers, counselors, parents, and students. Young professional actors reflecting the cultural diversity of the communities participate in the productions, play characters that inspire the students that through their vision, choices and leadership, can live healthier lives. In 2007, ETP in the Northwest performed for more than 9,500 children and adults.

Continuing Medical Education

KFH spent approximately \$5.1 million to provide continuing medical education to community physicians and providers, and physicians affiliated with the Permanente Medical Groups and other health care providers. A variety of continuing education programs were offered during 2007, and over 140,000 continuing education units (CEU) earned in California, Hawaii, Oregon and Washington.

Graduate Medical Education

Kaiser Permanente's first KFH Graduate Medical Education (GME) program began nearly 60 years ago in Oakland, California. Today, all hospital-based regions provide training and education for medical residents and interns. The nationally acclaimed program attracts some of the top medical school graduates in the United States and serves as a national model by educating the next generation of physicians in an integrated health care delivery system. Residents are offered the opportunity to serve a large, culturally diverse patient base and in a setting with sophisticated technology and information systems, established clinical guidelines and an emphasis on preventive and primary care.

KFH contributed \$43.4 million to educate more than 2,500 interns and residents in California, Hawaii, Oregon and Washington. The majority of medical residents are studying within the primary care medicine areas of Family Practice, Internal Medicine, Ob/Gyn, Pediatrics, Preventive Medicine, and Psychiatry. An additional 80 unpaid residents and fellows received training in Dermatology, Endocrinology, Family Practice, Internal Medicine, Geriatrics, Genetics, Obstetrics & Gynecology, Otolaryngology, Pathology, Pediatrics, Palliative Medicine, Plastic Surgery and Rheumatology in Oregon and Washington.

Nurse Practitioner and Other Non-Physician Training Programs

During 2007, KFH supported nearly 3,000 students pursuing a career in the allied health care field and spent \$12.6 million on training and education programs for nurse practitioners, nurses, radiology and sonography technicians, physical therapists, post-graduate psychology and social work students, pharmacists, and other non-physician health professionals.

In the Northwest, KFH and Health Plan provide uncompensated on-site clinical training for student from 19 community institutions who are pursuing careers in the health care field. The Graduate Medical Education Department provides administrative support for the nurse practitioners, physician assistant, allopathic medicine, midwifery, optometry, podiatry, nurse anesthetist and behavioral health programs.

The Kaiser Permanente School of Allied Health Sciences (KPSAHS), located Richmond, California, was originally established in 1989 as a radiology program in response to the severe shortage of radiology technologists. Due to the continued national shortage of medical imaging and therapy workforce, KPSAHS expanded the school to include 18-month programs in sonography, nuclear medicine and radiation therapy. In addition, the school provides courses in anatomy & physiology and advanced/basic phlebotomy.

During a one- or two- year postgraduate education and training program in California, licensed pharmacists gain additional experience and training in the provision of pharmaceutical care and administrative pharmacy services in an integrated managed care organization. The program enables residents to improve their clinical knowledge and skills while enhancing continuity of patient care in a wide range of ambulatory, intermediate and hospital settings.

The Kaiser Permanente Deloras Jones Nursing Scholarship program provides financial assistance for students enrolled in any California nursing program to encourage and support them to become

registered nurses or pursue advanced nursing degrees. Scholarships are awarded in the categories of underrepresented minorities, academic excellence, nursing as a second career and pursuit of graduate nursing degree.

Grants and Donations for Knowledge Dissemination

KFH donated approximately \$3.1 million on charitable contributions to nonprofit organizations in California, Hawaii, Oregon and Washington for the dissemination of evidence-based studies, informing the community on health care public policy and educational opportunities for individuals seeking a career as a health care provider or professional.

- The Oregon Healthcare Workforce Institute – Northwest Health Foundation received \$200,000 from KFH the Northwest to facilitate building organizational relationships to expand the number of graduates in the health care profession and also address challenges, such as clinical capacity, regulatory barriers, retention and educational capacity.
- KFH in Southern California awarded the California State University at San Marcos a \$172,000 grant for their accelerated baccalaureate nursing program. Funding supported the development of an accelerated entry-level program.

OTHER COMMUNITY BENEFITS

In 2007, KFH in California, Hawaii, Oregon and Washington spent approximately \$25.5 million on other community benefit activities and programs beyond the national streams of work.

Self Sufficiency Programs

KFH provided additional community based programs and services to low-income residents and student through the Learning Centers and Youth Employment Programs. In 2007, KFH spent \$5.3 million to support the following programs.

- **Learning Centers** - Through the *Watts Counseling and Learning Center (WCLC)* and *Educational Outreach Program (EOP)* disadvantaged children and their families in Southern California are provided on variety of counseling, education, and social services. WCLC provides mental health and counseling services, assistance to children with learning disabilities, and pre-employment training to high school youth, as well as operates a state-licensed preschool program, a summer day camp, and "Kids Can Cope" support groups for children dealing with siblings or parents fighting cancer. EOP

provides education and support services to primarily Latino youth, ages 10 to 14, of the San Gabriel Valley in East Los Angeles County. The focus of EOP is to provide dropout prevention programs in a community setting. Currently, EOP provides nine different programs both in English and Spanish to children and parents during after-school hours and on Saturdays.

- **Youth Employment Programs** - KFH supports youth employment programs aimed at improving education and job skills, or providing employment opportunities for targeted populations. Through the Summer Youth and INROADS programs, Kaiser Permanente employed a total of 535 high school and college students in 2007

Community Giving Campaigns

In 2007, KFH contributed \$283,186 million to support Community Giving Campaigns, a program-wide effort that has a direct impact on local communities. While a number of federations, including America's Charities, Black United Fund, Earth Share and United Way, and the many charities they represent, are listed in Campaign materials, the Campaign also supports a write-in option, which allows participants to donate to the non-profit 501(c) of their choice. Participants can make a donation using payroll deduction or make a one-time contribution via cash, check or credit card. Kaiser Permanente underwrites all of the associated processing costs for the Campaign, so 100% of all pledges go directly to the organizations our employees and physicians choose to support.

Other Grants and Donations

Approximately \$7 million was spent on other community grants and donations by KFH in California, Hawaii, Oregon and Washington.

INDEMNIFICATION OF DIRECTORS, OFFICERS,
EMPLOYEES, AND OTHER AGENTS

Section G-1. Definitions.

As used in this Article:

(a) "agent" means any person who: (i) is or was a Director, officer, employee, or other agent of this corporation; (ii) or who is or was serving at the request of this corporation as a director, officer, employee, or agent of another foreign or domestic corporation, partnership, joint venture, trust or other enterprise; (iii) or who was a director, officer, employee, or agent of a foreign or domestic corporation which was a predecessor corporation of this corporation or of another enterprise at the request of the predecessor corporation;

(b) "proceeding" means any threatened, pending, or completed action or proceeding, whether civil, criminal, administrative, or investigative;

(c) "special proceeding" means: (i) an action by or in the right of this corporation to procure a judgment in its favor; (ii) an action brought under California Corporations Code §5233; or (iii) an action brought by the California Attorney General, or a person granted relator status by the California Attorney General, for any breach of duty relating to assets held by this corporation in charitable trust; and

(d) "expenses" includes attorneys' fees and costs, reasonable fees and costs of consultants and experts, reasonable filing and processing charges and necessary and reasonable travel and related costs, and any expenses of establishing a right to indemnification under Section G-2 or G-5(b).

Section G-2. Agent Successful on the Merits.

To the extent that an agent has been successful on the merits in the defense of any claim or cause of action or portion thereof in any proceeding in which such agent was a party or was threatened to be made a party to such proceeding, in either case, by reason of the fact that such agent is or was an agent of this corporation, or in defense of any claim, issue, or matter therein, this corporation shall promptly indemnify the agent in full against expenses actually and reasonably incurred by the agent in connection therewith.

Section G-3. Settlements and Proceedings (Other Than Special Proceedings and Settlements Related Thereto) When Agent Not Successful on the Merits.

Upon making an affirmative determination pursuant to Section G-5, and subject to Section G-7, this corporation shall promptly indemnify any agent who was or is a party or is threatened to be made a party to any proceeding other than a special proceeding by reason of the fact that the agent is or was an agent of the corporation, against expenses, judgments, fines, settlements and other amounts actually and reasonably incurred in connection with any such proceeding, if the agent acted in good faith and in a manner the agent reasonably believed to be in the best interests of this corporation and, in the case of a criminal proceeding, had no reasonable cause to believe his or her conduct was unlawful. The termination of any proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the agent did not act in good faith and in a manner which the agent reasonably believed to be in the best interests of this corporation or that the agent had reasonable cause to believe that the agent's conduct was unlawful.

Section G-4. Special Proceedings When Agent Not Successful on the Merits.

Upon making an affirmative determination pursuant to Section G-5, and subject to Section G-7, this corporation shall promptly indemnify any agent who was or is a party or is threatened to be made a party to any threatened, pending or completed special proceeding by reason of the fact that the agent is or was an agent of this corporation, against expenses actually and reasonably incurred by the agent in connection with the defense or settlement of such a proceeding if the agent acted in good faith, in a manner the agent believed to be in the best interests of the corporation and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances.

No indemnification shall be made under this Section:

(a) With respect to any claim, issue or matter as to which the agent shall have been adjudged to be liable to this corporation in the performance of the agent's duty to this corporation, unless and only to the extent that the court in which such proceeding is or was pending shall determine upon application that, in view of all the circumstances of the case, the agent is fairly and reasonably entitled to indemnity for the expenses, which such court shall determine;

(b) Of amounts paid in settling or otherwise disposing of a threatened or pending action, with or without court approval; or

(c) Of expenses incurred in defending a threatened or pending action which is settled or otherwise disposed of without court approval, unless it is settled with the approval of the California Attorney General.

Section G-5. Authorization of Indemnification When Agent Not Successful on the Merits.

Any indemnification under Section G-3 or G-4 shall be made by this corporation only upon a determination that indemnification of the agent is proper in the circumstances because the agent has met the applicable standard of conduct set forth in Section G-3 or G-4, by:

- (a) A majority vote of a quorum consisting of Directors who are not parties to such proceeding; or
- (b) The court in which such proceeding is or was pending upon application made by this corporation or the agent or the attorney or other person rendering services in connection with the defense, whether or not such application by the agent, attorney or other person is opposed by this corporation.

Section G-6. Advance of Expenses.

Expenses incurred in defending any proceeding may be advanced by this corporation before the final disposition of the proceeding upon receipt of an undertaking satisfactory in form and amount to the Board of Directors by or on behalf of the agent to repay the amount of the advance unless it is determined ultimately that the agent is entitled to be indemnified as authorized in this Article.

Section G-7. Other Limitations on Indemnification.

Nothing in this Article shall affect any right to indemnification to which an agent other than a Director or officer is entitled by contract, but, except as provided in Sections G-2 and G-5(b), no indemnification or advance shall be made under this Article if inconsistent with:

- (a) A contract, or with the Articles of Incorporation and Bylaws of this corporation, in effect at the time of accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid; or

Section G-9. Insurance.

This corporation shall have the power to purchase and maintain insurance on behalf of any agent against any liability asserted against or incurred by the agent in such capacity or arising out of the agent's status as such, whether or not the corporation would have the power to indemnify the agent against such liability under the provisions of this Article; provided, however, that this corporation shall have no power to purchase and maintain such insurance to cover or indemnify any agent of the corporation for a violation of California Corporations Code §5233 (relating to self-dealing transactions).

Section G-10. Employee Benefit Plan Fiduciaries.

With respect to any proceeding against a person who is a trustee, investment manager or other fiduciary of an employee benefit plan, for acts or omissions relating to such person's fiduciary responsibilities with respect to such plan, this corporation shall indemnify those fiduciaries who are Directors, officers or employees of the corporation, to the maximum extent permitted by law, notwithstanding any other provision of this Article to the contrary.

Section H-4. Bylaws and Minutes.

The original or a certified copy of the Bylaws in writing or in any other form capable of being converted into clearly legible tangible form, together with all amendments thereto, and the minute book shall be kept at the principal office of the corporation and shall be subject to inspection as provided in Section H-1.

KAISER FOUNDATION HOSPITALS
FEIN: 94-1105628
December 31, 2007

**Part IV, Line 50a, RECEIVABLES FROM CURRENT AND FORMER OFFICERS,
DIRECTORS, TRUSTEES AND KEY EMPLOYEES**

Pursuant to the terms of the organization's accountable expense reimbursement plan, certain expenses may be paid by the organization on behalf of its officers, directors and key employees which are subsequently repaid by such person to the organization. At any point during the normal business cycle, there may be amounts receivable from such persons pursuant to the accountable plan.

Chief Executive Officer & President Compensation

Mr. Halvorson, CEO & President, received a one-time payment in 2007 from a supplemental retirement plan. That plan provided for vesting and payment of accrued benefits in 2007 and was part of the compensation package the Board of Directors approved while recruiting him to lead Kaiser in 2002. Those amounts were reported in prior years on the Form 990 as they were accrued. Excluding this one-time payment, his reported compensation and benefits in the 2007 filing would be \$8,749,719 (total from all columns). That number still has a substantial "double-count" of multiple years' incentive compensation, which is required under the Internal Revenue Service's guidance for reporting compensation on the organizations Form 990. "Double-count" means the compensation was reported in prior years as it was accrued, and also reported in the year paid. Excluding the currently "double-counted" compensation, Mr. Halvorson's compensation for 2007 (paid during 2007, excluding amounts earned in previous years, and including amounts earned in 2007 but paid in 2008) is \$6,219,719.
